RE: MB Docket No. 15-149

Tom Wheeler
Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Chairman Wheeler,

At the Boys & Girls Club of Green Bay, we believe in supporting and empowering youth to achieve their highest potential. We help Green Bay children who for various reasons find themselves alone and unsupervised after school. Our work extends through many avenues of outreach, and we are grateful for the support we have received from our many community partners. We are excited about the proposed merger of Charter Communications, Time Warner Cable and Bright House Networks and believe it would be a beneficial partner in the future.

The merged company, New Charter, would take on the positive legacies of the three former companies. In particular, it would work to maintain and cultivate established relationships with various community partners. The company understands that these relationships are a critical link to the communities it serves, and the merger would only strengthen these ties.

Time Warner Cable has been a great partner to our organization in the past, providing sponsorship to several STEM related events. Their commitment has garnered increased participation in STEM programs and afforded our youth with expert assistance, including financial and in-kind donations, as well as help with securing high profile speakers at our events. We appreciate our partnership with TWC and believe the relationship will only grow under New Charter.

Please consider the many benefits of a community-oriented cable broadband company and join us in support of the merger.

Sincerely,

Johanna Wicklund
Senior Director of Strategy & Measurement
Boys & Girls Club of Green Bay
